By Carina Franco

There are 4 main reasons why you do not get things done in your MLM network marketing business opportunity.

## 1. You are overwhelmed:

With the internet, especially in this industry, you get bombarded by a lot of information on different MLM network marketing business opportunities and ways to promote them. You get access to a huge amount of free and paid training going in different directions, so bottom line you get lost, overwhelmed and you do not know where to start.

You know, feeling overwhelmed and confused is one of the MAJOR obstacles that MOST online marketers face at some point in the process.

Solution:

You need a marketing plan, direction and specific objectives.

Before anything else you need a product or service to offer and a MLM network marketing system in place (your website, your lead capture page, your autoresponder, a complete sales funnel, your money making programs etc.).

Second step will be to promote your site:

The secret now is to follow a simple, proven marketing strategy and stick to it until it produces results. Focus on the fundamental marketing strategies that continue to produce results. Stop surfing the net looking for some magic strategy.

Do not waste your time. Commit to completion.

## 2. You do not know how to do it:

Get help a consultant to teach you how, a book or home study course to show you how, or even better, outsource it to someone who can just do it for you.

## 3. You do not find the time:

A lot of times you might find yourself doing no-money making activities, like checking your e-mails, phone calls, chatting online, surfing on the net. One of the biggest challenges you face in your MLM network marketing business opportunity is to discipline yourself to do what has to be done when it has to be done.

Solution:

Minimizing distractions and interruptions is crucial to get things done. Give priority to money-making activities, start doing them first. If you are in the middle of an important activity but you need to take over a second very important activity schedule future time to do it. If you still cannot do this, then you need to find someone to do it for you.

4. You do not enjoy the task or part of it:

A big reason for procrastinating any activity is the lack of enjoyment. If you do not like what you are doing you will find lots of excuses not to do it.

Solution:

If you do not like doing something, you should "delete it, delegate it, or automate it."

If you definitely cannot avoid doing that particular task and do not have the resources to outsource it, check if there is another way to get the same results without jumping into this particular activity that you just cannot stand.
